The Hardest Part Is Explaining How Wi-Fi Works

By **Keith Parsons, CWNE #3** · 2025-11-03 · originally on LinkedIn

I think my top issues relate to needing to explain how Wi-Fi actually works… why throughput testing isn't what some think it is, or why "green is good" is not really the answer, and of course why "one AP per (fill in the blank) is probably not the correct answer.
