LINKEDIN POST

Thanks to a blog from Rasika Nayanajith, as a trigger to upgrade my Ubiquiti Inc.

By **Keith Parsons, CWNE #3** · 2025-12-29 · originally on LinkedIn

wireless network at home to the latest code... (10.1.68 now in Early Release) and now I too have AP Names in the Beacons!

Thanks to Adrian Granados for having the foresight to already include in WiFi Explorer 3 the decodes for Ubiquiti's technique of adding AP Names in their beacons.

This will help considerably when troubleshooting sites with Ubiquiti Wi-Fi gear!
