Nobody Can Measure Cell Overlap Percentage

By **Keith Parsons, CWNE #3** · 2026-06-16 · originally on LinkedIn

For over 20-years I've heard vendors and others talk about cell overlap in terms of percentage... Pretty sure they don't know HOW to actually measure that... they usually just wave their hands to demonstrate 'overlap'. If you can't measure it, don't put it down as a 'requirement'.
