TEACHING

dB Math You Can Do in Your Head

By **Keith Parsons, CWNE #3** · 2026-07-03 · originally on LinkedIn

I've been teaching simple ways to do dB math in your head for over 20-years. It REALLY isn't that difficult. Keep dB's on the left and you add and subtract them, and 'real' math on the right, there you multiply and divide.

What tricks do you use for doing dB math?
