PERSONAL & BUSINESS

A Year of Posting, and What Landed

By **Keith Parsons, CWNE #3** · 2026-08-02 · originally on LinkedIn

Over the past year, 221,096 people saw something I posted here. With 1.7 million impressions. There are 11,388 of you following along now.

Two things stood out. The day I released the WLAN Pros Toolbox, free for anyone doing this work, you showed up.

And the posts I wrote from Wi-Co, Mobility Field Day, #WLPC events all landed well, because time in a room together carries over.

Make useful things. Be in the room.

Thank you for the year.

What tool do you wish existed?
